SMS TEXT MESSAGING SERVICE

PATIENT CONSENT FORM

We are now able to contact patients by text if they give us permission to do so and have provided a valid mobile number. The main aim of communication by text is to let you know that your prescription is ready to collect. There is the possibility that you could be reminded to re-order your prescription by text message also. We promise not to bombard you with messages, but you may receive the occasional message about things like flu jabs or NHS health checks. Text messages will appear from **07599838994** so please add this number to your contacts. If you decide that you no longer want to receive text messages, then please let us know.

If you would like to give us permission to contact you by text then please complete and return the form below. We will not give your contact details to anybody else. Please note that this service cannot receive texts at this time.

Please note that this service aims to help save you time, but is not infallible. It will tell you when a prescription has reached us and has been dispensed. We have no knowledge of what you have ordered with the surgery and although you order items together, they can arrive with us separately. We will try to manage situations such as this, but there is only so much we can do. In addition, if other people have access to your mobile phone then you need to decide if you are happy for them to see this information, although all it will show is that you have medication ready to collect.

*****YOU MUST LET US KNOW IF YOU CHANGE YOUR MOBILE NUMBER*****
